

# ARTICLE 11 AI, INC.

## SERVICE AGREEMENT & REQUIREMENTS DISCLOSURE

Effective Date: December 30, 2025 | Version 1.1

---

### PREAMBLE

This document constitutes a binding agreement between Article 11 AI, Inc. ("Company") and any individual, organization, or entity ("Client") engaging our services. By purchasing any service, you acknowledge that you have read, understood, and agree to all terms outlined herein.

**TRUTH OVER OUTCOME:** We are committed to complete transparency about what our services require and what we cannot guarantee.

---

### SECTION 1: MANDATORY INFRASTRUCTURE REQUIREMENTS

#### 1.1 Computer Hardware Requirements

You must have access to a computer with the following specifications:

- **Operating System:** Windows 11 (or compatible Linux distribution)
- **Processor/GPU:** Modern CPU or GPU capable of running AI inference workloads
- **Internet Access:** Persistent, always-on internet connection (24/7)
- **Connectivity Options:** Fiber, cable, or satellite (Starlink is fully compatible)

This can be your own hardware OR contracted cloud/hosting services. The choice is yours.

#### 1.2 API Access Requirement

You must have access to AT LEAST ONE (1) AI platform API:

- OpenAI API (ChatGPT / GPT-4)
- Anthropic API (Claude)
- Google AI API (Gemini)
- xAI API (Grok)

You are responsible for obtaining and paying for your own API access.

#### 1.3 Technical Familiarity OR Willingness to Learn

You must have EITHER:

- **OPTION A:** Someone familiar with ChatGPT, Claude, Gemini, or Grok interfaces, OR
- **OPTION B:** A genuine willingness to learn.

### THE GOOD NEWS:

Modern AI can teach you in real-time. If you're willing to engage, ask questions, and iterate, these systems will guide you through concepts, code, and implementation step by step. That's the beauty of it.

---

## SECTION 2: WHAT ARTICLE 11 AI OFFERS

### 2.1 100% DIY AI Capability

Our system enables complete do-it-yourself AI deployment. We provide the frameworks, training, and methodology — you own and operate everything. No vendor lock-in. No dependency on us.

### 2.2 Coordination & Agentic AI in Real-Time

We specialize in multi-agent AI coordination: multiple AI systems working together under unified governance with human oversight. This is not theoretical — it is operational.

### 2.3 Constitutional Framework (Required)

To use our services, you **MUST** adopt our Constitution as a governance framework. However:

- The Constitution is **FORKABLE** — you can modify it to match your organizational structure
- It is **FREEWARE** — no licensing fees, CC0 public domain
- Modification capability is **BUILT IN BY DESIGN**
- Available at: <https://article11.ai/constitution>

---

## SECTION 3: DISCLAIMER OF WARRANTIES & LIMITATIONS

### 3.1 NO GUARANTEE OF THIRD-PARTY API FUNCTIONALITY

Article 11 AI, Inc. DOES NOT and CANNOT guarantee that third-party APIs will:

- Function as expected at any given time
- Remain available, stable, or unchanged
- Produce consistent or predictable outputs
- Continue to exist or maintain current pricing

### 3.2 NO GUARANTEE OF SPECIFIC OUTCOMES

We provide frameworks, methodologies, training, and consultation. We do not guarantee any specific business outcomes. Results depend on your implementation and factors outside our control.

### 3.3 EXPERIMENTAL TECHNOLOGY

Multi-agent AI coordination is an emerging field. You assume all risks associated with implementing experimental AI systems.

## SECTION 4: SERVICE TIERS & PRICING

All prices USD. Subject to change. Current as of document effective date:

Service	Price	Description
AI-Powered Web Design	\$25,000+	Custom site with integrated AI chatbot
Smart AI Agents	\$150,000+	Full agentic deployment with task queues
AI Coordination Frameworks	\$250,000+	Multi-agent systems, enterprise/govt
Consulting & Training	\$2,500/hr	Min 4hr. Strategic sessions \$50,000

## SECTION 5: ACKNOWLEDGMENT & ACCEPTANCE

By engaging Article 11 AI services, you acknowledge and agree that:

1. You have read and understood this entire document.
2. You have or will obtain the required hardware and internet access.
3. You have or will obtain at least one AI platform API.
4. You are familiar with AI interfaces OR willing to learn.
5. You will adopt the Article 11 Constitution (modifiable to your needs).
6. You understand we cannot guarantee third-party API functionality.
7. You proceed at your own risk with knowledge of the experimental nature.
8. Refunds are not guaranteed once services have been rendered.

### THIS DOCUMENT CONSTITUTES A LEGALLY BINDING AGREEMENT.

If you do not agree to these terms, do not engage our services.
